

# **St Anne's Catholic Primary School**

## **First Aid Policy**

### **Important coronavirus (COVID-19) update**

We have added Appendix 1 to this policy, which provides details on managing first aid procedures during the coronavirus (COVID-19) pandemic.

**Living and working as Jesus taught us!**

## **Contents:**

Statement of intent

1. Legal framework
2. Aims
3. First aiders
4. Automated external defibrillators (AEDs)
5. Emergency procedures
6. Reporting to parents
7. Offsite visits and events
8. Storage of medication
9. Illnesses
10. Allergens
11. Consent
12. Monitoring and review

Appendix 1. COVID-19

## Statement of intent

St Anne's Catholic Primary School is committed to providing emergency first aid provision in order to deal with accidents and incidents affecting staff, pupils and visitors. The arrangements within this policy are based on the results of a suitable and sufficient risk assessment carried out by the school in regard to all staff, pupils and visitors.

The school will take every reasonable precaution to **ensure the safety and wellbeing of all** staff, pupils and visitors.

The school's Learning Mentor and Business Manager have overall responsibility for ensuring that the school has adequate and appropriate first aid equipment, facilities and personnel, and for ensuring that the correct first aid procedures are followed.

Signed by..... Headteacher

Date.....

# 1. Legal framework

1.1. This policy has due regard to legislation and statutory guidance, including, but not limited to, the following:

- Health and Safety at Work etc. Act 1974
- The Health and Safety (First Aid) Regulations 1981
- The Management of Health and Safety at Work Regulations 1999
- DfE (2015) 'Supporting pupils at school with medical conditions'
- DfE (2000) 'Guidance on First Aid for Schools'
- DfE (2018) 'Automated external defibrillators (AEDs)'

## 2. Aims

2.1. All staff will read and be aware of this policy, know who to contact in the event of any illness, accident or injury, and ensure that this policy is followed.

2.2. Staff will always use their best endeavours to secure the welfare of pupils.

2.3. Anyone on the school premises is expected to take reasonable care for their own and other's safety.

2.4. The aims of this policy are to:

- Ensure that the school has adequate, safe and effective first aid provision for every pupil, member of staff and visitor to be well looked after in the event of any illness, accident or injury, no matter how major or minor
- Ensure that staff and pupils are aware of the procedures in the event of any illness, accident or injury
- Ensure that medicines are only administered at the school when express permission has been granted for this
- Ensure that all medicines are appropriately stored
- Promote effective infection control

2.5. Nothing in this policy will affect the ability of any person to contact the emergency services in the event of a medical emergency. For the avoidance of doubt, staff should dial 999 in the event of a medical emergency before implementing the terms of this policy and make clear arrangements for liaison with ambulance services on the school site.

2.6. To achieve the aims of this policy, the school will have suitably stocked first aid boxes in line with the assessment of needs. Where there is no special risk identified, a minimum provision of first aid items will be as follows:

- A leaflet giving general advice on first aid
- 20 individually wrapped sterile adhesive dressings, of assorted sizes
- 2 sterile eye pads
- 4 individually wrapped triangular bandages, preferably sterile
- 6 safety pins
- 6 medium-sized (approximately 12cm x 12cm) individually wrapped sterile unmedicated wound dressings
- 2 large-sized (approximately 18cm x 18cm) individually wrapped sterile unmedicated wound dressings

- 1 pair of disposable gloves
- Equivalent or additional items are acceptable
- All first aid containers will be identified by a white cross on a green background

2.7. The Learning Mentor is responsible for examining the contents of first aid boxes, including any mobile first aid boxes for offsite use – these will be frequently checked and restocked as soon as possible after use. Items will be safely discarded after the expiry date has passed.

2.8. First aid boxes are in the following areas:

- **The school office**
- **Key Stage One area**
- **Minibus**

### 3. First aiders

3.1. The main duties of first aiders will be to administer immediate first aid to pupils, staff or visitors, and to ensure that an ambulance or other professional medical help is called, when necessary

3.2. First aiders will ensure that their first aid certificates are kept up-to-date through liaison with the School Business Manager

3.3. Each classroom's first aiders will be responsible for ensuring all first aid kits are properly stocked and maintained. The first aid appointed person(s) will be responsible for maintaining supplies

3.4. The current first aid appointed person(s) are:

Name	Contact	Location	Date of first aid qualification
Name	Email address	Location	Date
Kathy McCrystal	kathy.mccrystal@knowsley.gov.uk	School Office	June 2017
Maureen Revell	maureen.revell@knowsley.gov.uk	Learning Mentor's Room	May 2019

### 4. Automated external defibrillators (AEDs)

4.1. The school has an AED, which is located in the foyer outside the school office.

4.2. Where the use of the AED is required, individuals will follow the step-by-step instructions displayed on the device.

4.3. A general awareness briefing session, to promote the use of AEDs, will be provided to staff on an annual basis, and usually during the first INSET session of the academic year.

4.4. Use of the AED will be promoted to pupils during PSHE lessons.

## **5. Emergency procedures**

- 5.1. If an accident, illness or injury occurs, the member of staff in charge will assess the situation and decide on the appropriate course of action, which may involve calling for an ambulance immediately or calling for a first aider.
- 5.2. If called, a first aider will assess the situation and take charge of first aider administration.
- 5.3. If the first aider does not consider that they can adequately deal with the presenting condition by the administration of first aid, then they will arrange for the injured person to access appropriate medical treatment without delay.
- 5.4. Where an initial assessment by the first aider indicates a moderate to serious injury has been sustained, one or more of the following actions will be taken:
  - Administer emergency help and first aid to all injured persons. The purpose of this is to keep the victim(s) alive and, if possible, comfortable, before professional medical help can be called. In some situations, immediate action can prevent the accident from becoming increasingly serious, or from involving more victims.
  - Call an ambulance or a doctor, if this is appropriate – after receiving a parent's clear instruction, take the victim(s) to a doctor or to a hospital. Moving the victim(s) to medical help is only advisable if the person doing the moving has sufficient knowledge and skill to move the victim(s) without making the injury worse.
  - Ensure that no further injury can result from the accident, either by making the scene of the accident safe, or (if they are fit to be moved) by removing injured persons from the scene.
  - See to any pupils who may have witnessed the accident or its aftermath and who may be worried, or traumatised, despite not being directly involved. They will need to be escorted from the scene of the accident and comforted. Younger or more vulnerable pupils may need parental support to be called immediately.
- 5.5. Once the above action has been taken, the incident will be reported promptly to:
  - The Headteacher
  - The pupil's parents

## **6. Reporting to parents**

- 6.1. In the event of incident or injury to a pupil, at least one of the pupil's parents will be informed as soon as practicable.
- 6.2. Parents will be informed in writing of any injury to the head, whether minor or major, and be given guidance on the action to take if symptoms develop.
- 6.3. In the event of a serious injury or an incident requiring emergency medical treatment, the school office will telephone the pupil's parents as soon as possible.
- 6.4. A list of emergency contacts will be kept at the school office.

## **7. Offsite visits and events**

- 7.1. Before undertaking any offsite visits or events, the teacher organising the trip or event will assess the level of first aid provision required by undertaking a suitable and sufficient risk assessment of the visit or event and the persons involved.
- 7.2. For more information about the school's educational visits requirements, please see the Educational Visits and School Trips Policy.

## **8. Storage of medication**

- 8.1. Medicines will always be stored securely and appropriately in accordance with individual product instructions, except where individual pupils have been given responsibility for keeping such equipment with them.
- 8.2. All medicines will be stored in the original container in which they were dispensed, together with the prescriber's instructions for administration, and properly labelled, showing the name of the patient, the date of prescription and the date of expiry of the medicine.
- 8.3. All medicines will be returned to the parent/carer for safe disposal when they are no longer required or have expired.
- 8.4. An emergency supply of medication will be available for pupils with medical conditions that require regular medication or potentially lifesaving equipment, e.g. an EpiPen.
- 8.5. Parents will advise the school when a child has a chronic medical condition or severe allergy so that an IHP can be implemented and staff can be trained to deal with any emergency in an appropriate way. Examples of this include epilepsy, diabetes and anaphylaxis. A disclaimer will be signed by the parents in this regard.

## **9. Illnesses**

- 9.1. When a pupil becomes ill during the school day, the parents will be contacted and asked to pick their child up as soon as possible.

A quiet area will be set aside for withdrawal and for pupils to rest while they wait for their parents to pick them up. Pupils will be monitored during this time.

## **10. Allergens**

Where a pupil has an allergy, this will be addressed via the school's Allergen and Anaphylaxis Policy.

## **11. Consent**

- 11.1. Parents will be asked to complete and sign a medical consent form when their child is admitted to the school, which includes emergency numbers, details of allergies and chronic conditions, and consent for the administration of emergency first aid – parents are responsible for informing the school office of any changes to the information contained in this form.
- 11.2. Staff do not act 'in loco parentis' in making medical decisions as this has no basis in law – staff will always aim to act and respond to accidents and illnesses based on what is

reasonable under the circumstances and will always act in good faith while having the best interests of the pupil in mind – guidelines will be issued to staff in this regard.

## **12. Monitoring and review**

- 12.1. This policy is reviewed annually and any changes communicated to all members of staff.
- 12.2. Staff will be required to familiarise themselves with this policy as part of their induction programme. Staff will be informed of the arrangements that have been made in connection with the provision of first aid, including the location of equipment, facilities and personnel.

## **APPENDIX 1 - First Aid Procedures During the Coronavirus (COVID-19) Pandemic**

### **Coronavirus COVID 19(as per St John's Ambulance)**

#### Be aware of the risks to yourself and others

When approaching a casualty there is always a risk of cross contamination – especially when you may have to get close to the casualty to assess what is wrong or to check their breathing. It is always important to be aware of the risks of how this cross contamination has occurred. According to NHS 111 we do not know exactly how coronavirus spreads from person to person but similar viruses are spread in cough droplets.

#### Keep yourself safe

In line with government advice, make sure you wash your hands or use an alcohol gel, before and after treating a casualty also ensure that you don't cough or sneeze over a casualty when you are treating them.

The Resuscitation Council (UK) provides some useful advice of how to keep yourself safe when providing CPR. You can read their full advice on their website here.

Don't lose sight of other cross contamination that could occur that isn't related to COVID-19.

Wear gloves or cover hands when dealing with open wounds

Cover cuts and grazes on your hands with waterproof dressing

Dispose of all waste safely

Do not touch a wound with your bare hand

Do not touch any part of a dressing that will come in contact with a wound.

#### Give early treatment

The vast majority of incidents do not involve you getting close to a casualty where you would come into contact with cough droplets. Sensible precautions will ensure you are able to treat a casualty effectively.

#### Keep yourself informed and updated

As this is a new disease this is an ever-changing situation and the government and NHS are continually updating their advice. Make sure that you regularly review the NHS 111 or Gov.uk website which has a specific section on Coronavirus.

#### Remember your own needs

These are challenging and uncertain times for all. The COVID-19 outbreak has meant a lot of upheaval and worry for people. In order to help others you will also need to look after your own needs. Make sure you take time to talk about your fears and concerns with someone you trust and to take out time to look after yourself.
