

National Non-Fiction November 2020

The Planet We Share

The purpose of this list is to highlight *some* of the best and most recently published books about this year's theme. For convenience it is divided into broad subtopics, with a *suggestion* of age suitability for each title.

Environment

100 Things to Know About Planet Earth

Usborne ISBN 9781474950626 £9.99

A visually stunning book filled with fascinating facts, bright infographic illustrations, information on the ways we can help our planet and links to specially selected websites to find out more.

The Big Book of Blooms

Yuval Zommer

Thames and Hudson ISBN 9780500651995 £12.95

This latest title in a series of giant-size non-fiction picture books explores all kinds of colourful, carnivorous, weird and wonderful flowering plants from around the world. All of the other titles in the Big Book series celebrate different aspects of the world around us including: *The Big Book of Bugs*, *The Big Book of Birds*, *The Big Book of the Blue*, and *The Big Book of Beasts*. Primary

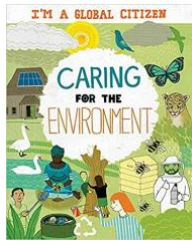

Can You Hear the Trees Talking?

Peter Wohlleben

Greystone Kids ISBN 9781771644341 £14.99

Based on the international bestseller *The Hidden Life of Trees*, this interactive introduction to the forest shares outdoor activities kids can do on their own or with parents, plus quizzes, photos, fun facts and more! Primary/Secondary

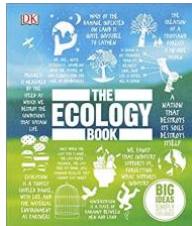

Caring for the Environment (I'm a Global Citizen)

Georgia Amson-Bradshaw & David Broadbent

Franklin Watts ISBN 9781445164007 £8.99

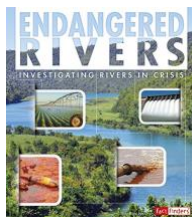

This looks at the issues around the environment from climate change to biodiversity and pollution. One of a series which promotes the idea that we all have power as individuals: each of us can change things and each of us has choices about how we behave. Primary

The Ecology Book: Big Ideas Simply Explained

Dorling Kindersley ISBN 9780241350386 £18.99

How do species interact with each other and their environment? What is biodiversity and can we afford to damage it? As our influence on the planet grows, these questions are becoming more pressing. The book explores key theories, movements, events and people linked with the environment and climate change. Secondary

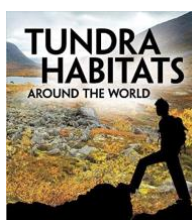

Endangered Earth: Endangered Rivers

Rani Iyer

Raintree ISBN 978147492431 £12.99

The actions of humans are harming the important eco-systems of rivers. This book explains why rivers matter and the part we can play in protecting them. This is one of a series which also includes *Endangered Energy*, *Endangered Oceans* and *Endangered Rainforests*. Primary

Exploring Earth's Habitats: Tundra Habitats Around the World

Phillip Simpson

Raintree ISBN 9781474785846 £12.99

Learn about the geography and resources of tundra habitats as well as how animals and people have adapted to and changed tundra environments. This is one of a new series which also covers desert, forest, marine and grassland habitats. Primary/Secondary

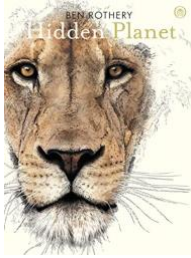

From Tiny Seeds: The Amazing Story of How Plants Travel

Émilie Vast

Thames and Hudson ISBN 9780500651896 £14.95

Discover the many wonderful ways that seeds can travel and watch as they grow into brand new plants. Primary

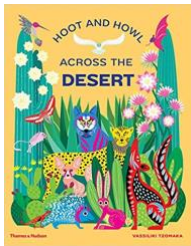

Hidden Planet: An Illustrator's Love Letter to Planet Earth

Ben Rothery

Ladybird ISBN 9780241361009 £20.00

This beautiful large format book celebrates some of Earth's 'hidden species from the bold and beautiful to the interesting but ugly', reveals some surprising animal relationships and provides a 'glimpse of the outstanding diversity of nature'. The illustrations are stunning! Shortlisted for the 2020 School Library Association Information Book Award. Primary/Secondary

Hoot and Howl Across the Desert

Vassiliki Tzomaka

Thames and Hudson ISBN 9780500651988 £12.95

Travel across some of the world's driest landscapes and discover the remarkable animals and plants that survive in desert climates, both hot and cold. Primary

I Ate Sunshine for Breakfast

Michael Holland & Philip Giordano

Flying Eye Books ISBN 9781911171188 £11.99

A fabulous introduction to the world of plants, their different (sometime surprising) uses, and suggestions for activities and projects. Primary

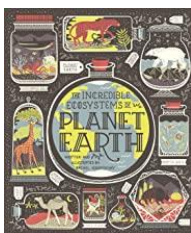

I Care About: My Planet

Liz Lennon & Michael Buxton

Franklin Watts ISBN 9781445171913 £11.99

In a very gentle way, this encourages young children to be green and appreciate the planet and is an ideal starting point for discussing environmental issues. One of a series. Primary.

The Incredible Ecosystems of Planet Earth

Rachel Ignotofsky

Wren & Rook ISBN 9781526361745 £12.99

A beautifully illustrated journey through the world's ecosystems, exploring the plants and animals that live here and explaining how they – and Planet Earth – work. Primary/Secondary
