

Personal Statement: Chelsea Reyland

I am applying to become a Parent Governor for St Anne's Catholic Primary School as I believe in the importance of every child having the best possible start in life, and I would like to play an active role in supporting our school community. As a parent of a child at the school, I have a direct understanding of the experiences, challenges, and opportunities our pupils encounter, and I am committed to ensuring that all children flourish both academically and personally.

My background is in education - I worked for several years as a secondary English teacher, specialising in SEN education, before moving abroad to recruit UK teachers for one of the largest private school groups globally. This experience provided me with valuable insights into school improvement, recruitment, and the importance of high-quality teaching and learning. I now work locally in early years and child development, teaching baby classes and running my own business.

As both a teacher and a SEN parent, I understand education from multiple perspectives. I am particularly passionate about inclusion and ensuring that every child, regardless of background or ability, has access to the right support and opportunities to thrive.

Living locally, I actively engage with the community and would like to help strengthen the partnership between parents, staff, and governors. I am enthusiastic, committed, and ready to contribute my time and expertise to support the school's leadership team, shape its strategic direction, and ensure our children receive the best possible opportunities to succeed.
